

Focused PLC Approach

Summary:

Based on student achievement data and failure rates, Focused PLC's will be offered the opportunity to increase the frequency of PLC meetings with the goal of increasing student achievement. The Focused PLC meetings will dive deeper into formative assessment data and as a result, will implement interventions/enrichments.

Process:

- Targeted PLC's based on data and administrative approval
 - The Focused PLC will choose 5 dates per semester to meet for three hours during the school day
 - The Focused PLC will utilize the building-wide data discussion form AND will need to attach or link specific formative assessment data discussed in the meeting.
-

PLC is a process with three big ideas.

1. A focus on learning.
2. A collaborative culture and collective responsibility.
3. Results-oriented.

Preparing all students to be college, career, and life ready.
