

## Guiding Coalition Meeting

October 20, 2020

### I. [Review Norms](#)

#### II. Benchmark Data Discussion: First SIT Team meeting is next week.

A. Kindergarten: 15% at risk in Math, 8% at risk in reading

B. 1st: 26% at risk in math, 27% at risk in reading

C. 2nd: 30% at risk in math, 42% at risk in reading

These scores are similar to what we've seen in past years. Considering it's a new (long and frustrating) test, as well as the fact that we were out this past spring.

### III. [PLC Application:](#)

A. [BPS](#) - most similar in our county to us

B. We'll be looking at applying. Watch for emails.
