**The analysis below is based on our teams common assessment of the following essential standard or skill(s):**

**Which of our students need additional time/support to achieve proficiency?**

**As a team how will we provide that time/support?**

**What is an area where my students struggled?**

**What strategies were used (by myself or teammates) whose students performed well?**

**What patterns can we identify from student mistakes? What do we believe is the cause?**

**What is our plan to enrich and extend the learning for students who are proficient?**

**How can we improve this assessment?**
