

3-20-19

## Leadership Team Notes

We began by looking over grade level team notes/plan time...what we notice, wonder? We made comments in the boxes for each grade level. Review the comments with your grade level. Other positive celebrations:

Kindergarten- Good job teaching writing with your kids! We are so proud of them and love how they are excited to share their progress with other teachers.

1st grade- Good job with your math scores. We are excited to see the writing rubric for the informative piece.

2nd grade- Good job on placing the "I can" statements in the hallway!

3rd grade- Good job on looking forward and discussing what needs to be taught before the year is over!

4th grade- Good job on bringing up DRA scores! Only 7/41 are not at a level 40.

5th grade- Good job on using examples to model your teaching of the rubrics for your common assessments.

All grades: What does it look like for your grade level when you discuss common assessments and compare student progress for all subject areas?

\*\* Mystery Science has a link to send home for the parents. Ask Mrs. Huster if you need help finding it. There is also a cumulative assessment tab. This would be great to add in newsletters and the parents can even watch the videos the kids watch.

Please get your field trip forms in so we can get busses.

Next year's concerns...

Small group time in 4th grade is in the afternoon, can we re-look at the schedule

Pre-school recess time / new playground equipment

Basketball goals- ready, it just needs to be put up
