What is one essential standard your students are working on:

In what class are students working on this standard?

How many students are in this class?

What evidence are you collecting on students' progress towards meeting this standard? (Attach evidence/assessment)

How many students have reached proficiency on this standard?

For students that have reached proficiency, what is the next step for them?

For students that have not met proficiency, what is the next step for them?

What support/resources do you need in order to have all students make growth on this standard?
