

Readers Response #2

ch. 14 I think that Gwen is worried about Freak getting a body transplant because it may not work because no one has tried it yet.

ch. 17 I think Maxwell is thinking if all those things his father said were true.

ch. 19 "They're like bugs, my father says." They're not too smart at all, but there's lots of them and they keep at it."

Paraphrase sentence

There's a lot of cops but they're not so smart but they don't quit at their job.

ch. 20 What is the best summary for Ch. 20?

In the beginning of Ch. 20 Killer Kane chokes Loretta halfway to death and Max tells his dad that he saw him ~~choke~~ choke his mom and Freak ~~squirts~~ and squirts Killer Kane in the eyes and Freak + Max run out of the basement and go outside where they're reunited with their families.

ch.21 I think Grim is trying to say that Killer Kane was a mistake and that he shouldn't have to be here.

ch.22 Freak (Kevin) is excited for his 13-birthday. Freak wants a computer for his birthday. Freak doesn't want to eat, he just wants to get his computer. After his cake he leaned back and started to make a wheezing sound and he had a seizure.

ch.23 I infer that Ch.23 is going to be about Max probably think he's not smart enough. He thinks his mind is like a "blank book". I think it has something to do with Freaks accident

ch.24 The author titled Ch.24 "Return of Kicker" because Max keeps on kicking the nurses in the ICU and he kept thinking about himself when he was in Pre-school. I know this because when Max first met Freak it reminded him about when he was little and kicked teachers.
